

At New York, we want all pupils to strive to reach their full potential. Through our engaging science curriculum, we prepare our pupils for the world of tomorrow.

At New York, everyone views themselves as a scientist.

Science links to other curriculum areas and to the world around us.

We are encouraged to ask and wonder; sparking our curiosity.

We come as we are,
we leave at our best.

We show our teachers what we already know and what we have learned.

Our lessons are well sequenced and we talk about our prior learning.

We enjoy using a range of equipment and having the chance to work in different environments.
