

REMOTE LEARNING 2020/ 2021 - Nursery Week Two

The overview below is provided to ensure that your child can continue to access learning whilst absent from school. Your child's teacher will provide the learning to be completed in the allocated slots on the timetable. If your child is unwell there is no expectation that they complete the activities on this timetable but would do what they can when you feel they are well enough. These continue to be unprecedented times and we must work together to ensure that children's learning continues to progress.

As during lockdown, teachers will remain in touch and will respond to any queries you may have. This timetable and accompanied learning is not meant to burden you at home but to provide clarity of what your child is expected to do when unable to access school.

Thank you for your support, keep following us on Twitter and together we will continue to make this work.
